### Pest News:

#### ▶ **Strobe Lights repel rodents**

The latest technology in high intensity proprietary strobe lights is being used to repel squirrels, roof rats, Norway rats, raccoons, and other rodents from attics and crawlspaces in as little as 24 hours. The devices, manufactured by Evictor Products Inc. are claimed to be safe, harmless, energy efficient and cost efficient. Pest professionals are installing them in attics, crawl spaces and other dark locations where rodents frequent are found. Read more information on the company [web site](#).

#### ▶ **Epidemic Strikes Bats**

A mysterious condition that is already decimating bat populations in New York, Massachusetts and Vermont has spread to Connecticut, with vast implications not only for bats but for the vital role they play in controlling mosquito populations.
